 DDO, Chief, Evaluation and Program Design Staff
 DDS&T, Chief, Plans and Resources Staff
 Administrative Officer, DCI Area

FROM: Daniel A. Childs, Jr.
 Comptroller

SUBJECT: Detail on ADP and Word Processing Terminals

25X1

1. As part of the ExCom Review of the 1985 Program, we intend to provide information dealing with the growth in ADP and Word Processing capabilities in the Agency. We believe that senior Agency managers need to be made aware of the size of this effort and the impact such growth may have on our overall program. Further, we believe that senior Agency managers need to assure themselves that we are proceeding on a course in keeping with the approved Agency long-range information handling strategy.

25X1

2. To give us a better measure of this growth, we are requesting information that expands upon that which you provided with your Program submission. Specifically, we ask that you provide detail on the number of ADP and Word Processing terminals you are either purchasing or renting in the 1983-1985 time period.

25X1

3. The attached table notes the funds that offices in your Directorate programmed in the 1985 Program submission for either purchase or rental of terminals in 1983, 1984, or 1985. Please provide the number of terminals related to these funds, by year. (This can be done by placing the number in parentheses to the right of the corresponding value figure on the table.) We need this data by 16 May.

25X1

4. If you have any questions regarding definition of categories or what specific data is requested, please contact [redacted] Chief,
 Information Handling Group, of this Office
